

'Business Focus' Program

Regaining and Enhancing control of your business

The Solution. The Predicament.

Do you receive regular contact from your business advisor to assist in the **continued improvement** of your business?

Do you feel you can improve your business and there is potential but, are unsure about how to achieve it?

You want to take control of where the business is going, instead of looking at last years report to discuss how it went.

Unlock your business' potential through our **Business Focus Program**. This comprehensive program, unique to Provincial Accounting, takes a holistic approach to planning the future path of your business.

Our experts will work closely and regularly with you on all business areas to implement practical and effective solutions which will maximise results. Included in the **Business Focus Program** are four key areas of focus, vital to long-term success of your business:

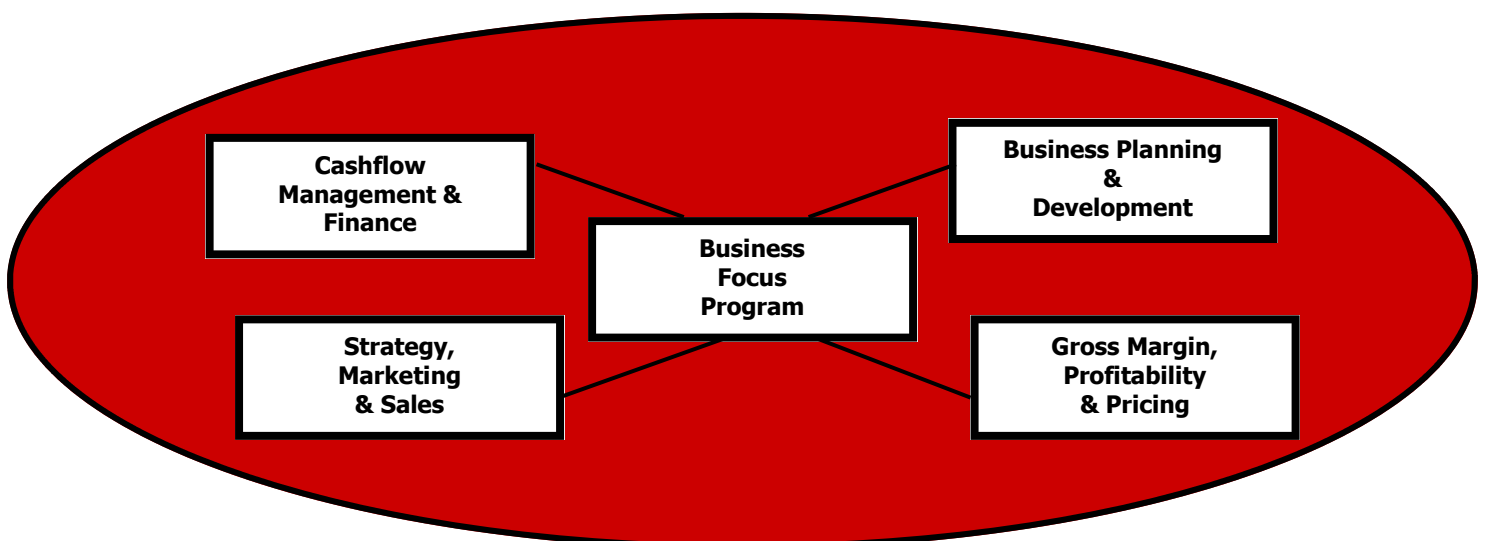

- Business Planning
- Profitability
- Strategy
- Cashflow

What you Receive. Who's It For?

Put simply, the Business Focus Program has been designed for your business. It has assisted many businesses from various industry sectors including the retail & service industries, medical, manufacturing, building & construction, agribusiness and professional service providers.

The Business Focus Program is a practical solution to effective business operations. It includes:

- Monthly or quarterly contact meetings at your premises or ours (yes we can visit you), to continuously work on and improve your business.
- Fixed Fee Quote up front, no surprises
- "Accountability Action lists".
- Meetings with your major customers
- Meetings with Bank Managers
- Individually tailored packages to suit your needs.
